

What is

Hosting?

An opportunity to connect orphans to families.

A life changing 4-6 week experience where you welcome a child from overseas into your home. Some of these children have never had a normal family life.

You can help change that!

You show them what a loving family is all about, to be loved and cared for without conditions. You might be surprised at whose life is changed the most at the end of the host season!

Colombia Program

Colombia is unique in that they consider the host program as an intentional way to connect orphaned children to forever families.

The children in Colombia are beautiful children filled with hope and joy. We personally interview all children and select children for their resilience and desire to participate in our program. Other factors are considered as well.

If there is a strong connection between the child and the host family, the family can pursue adoption of their child.

Families interested in hosting a child can contact P143. Once approved and paired with a child, the family has an opportunity to video chat with the child 1-2 weeks prior to arrival for a soft introduction.

Because all of the children in the program are available for adoption, Colombia requires constant advocacy from both Advocacy Host-Only and Adoption-Minded families to ensure the best possible opportunity of permanency.

SUMMER HOSTING

2024

To inquire about Hosting
please visit:

WWW.P143.ORG

[EMAIL INFO@P143.ORG](mailto:INFO@P143.ORG)
[CALL 888-783-1783](tel:888-783-1783)

Project 143 offers orphans what may be their only (and perhaps last) chance at finding a family.
Children range from 7 - 15 years old

Hosting and Adoption

While all children who participate in Project One Forty Three's Orphan Hosting Program are eligible for adoption, official adoption eligibility can only be obtained by an accredited adoption agency.

Hosting alone accomplishes remarkable changes in the life of an orphan, giving a child respite from institutional life and **HOPE** for a future beyond the orphanage walls.

Eligibility for Hosting

Applications accepted from every state across the USA. Open to married couples, singles and families of all sizes.

Host Program Dates
Winter Program: December
Summer Program: Late June - Early August
Transportation required to airport departure/arrival hub.

*2024 airports TBD

Host Fees are comparable to an overseas mission trip. Host donations secure and cover a child's required documentation such as a passport, transportation, airfare, travel insurance and chaperone expenses to escort child to and from country.

Where Do I Begin?

P143 Representatives are experienced host/or adoptive parents themselves; standing by to readily answer your questions and hold your hand every step of the way.

Each Host Family has the opportunity to review and select an available child that is featured on the photo listing.

Next, a security hosting deposit is required, background clearances and home safety visit.

Each family will participate in host and trauma training prior to the child's arrival.
